

## save money on prescriptions and help make wishes come true

By Rich Rosen

Watertree Health® was founded to address the need for accessible and affordable health care products and services in Buffalo and across America. The company offers a free prescription discount card that helps people save money on most FDA-approved brand name and generic medications. In 2015 alone, Watertree Health saved people who have their card \$84 million on prescription costs.

As an added bonus, each time you save money using Watertree's free prescription discount card, a donation is made to the local Buffalo chapter of Make-A-Wish®. Last year, Watertree donated \$530,000 that helped grant 43 wishes in 16 local chapters. Here in Buffalo, a five-year-old girl battling cancer had her wish granted to go to a Florida theme park of her choice.

Watertree Health's founders know that, while health insurance can be a lifesaver for you and your family, it doesn't always cover the prescription costs. Sometimes medicines aren't covered, and high deductibles must be met before getting coverage. Watertree Health doesn't want the cost of a prescription to be the reason for not filling it, and they don't want people to skip doses to lengthen your supply of medication. The company's mission is to simply help individuals improve their lives by helping them to improve their health.

An online tool to help you find the lowest cost for your medicines using the card at pharmacies near you can be found at [wtree.us/savingstool](http://wtree.us/savingstool). All brand name, generic prescriptions and over-the-counter medicines are eligible for savings. The card is also accepted at 95% of all pharmacies including Tops, Rite Aid, CVS, Kmart, Walmart, Walgreens, and other local, regional and national stores.

Prescription savings and donations to strategic health-related nonprofit partners are how the company assesses how they are adhering to and advancing their mission. Shane Power, Watertree Health's President, says, "The culture of our company is built on service. It's in our DNA. We are committed to helping everyone improve their health."

To obtain a free prescription discount card benefitting Make-A-Wish, go to [www.WatertreeHealthCard.com/mawrosen](http://www.WatertreeHealthCard.com/mawrosen). The card can be shared with friends and family, and used as many times and at as many pharmacies as you want.
